

Grade 1 Mathematics Task Specific Rubric

	4	3	2	1
Problem Solving and Reasoning	<ul style="list-style-type: none"> Includes multiple/most combinations of 17 Shows some evidence of an organized strategy Uses precise reasoning and justification to achieve a correct and comprehensive answer 		<ul style="list-style-type: none"> Gives one combination for 17 Uses some reasoning and justification 	<ul style="list-style-type: none"> Offers no solution or incorrect solution Provides no correct reasoning or justification
Representations and Connections		<ul style="list-style-type: none"> Uses some symbolic notation that connects with the picture models 	<ul style="list-style-type: none"> Uses no (or incorrect) symbolic notation Relies on picture models 	<ul style="list-style-type: none"> Uses no (or incorrect) pictures and/or symbols
Communication	<ul style="list-style-type: none"> Clearly communicates the strategy used to organize the number combinations 	<ul style="list-style-type: none"> Communicates solutions, but cannot explain a pattern 		<ul style="list-style-type: none"> Offers no explanation of work
